

This is the view from center court. If you have props that will require the double door scenario, you will enter through the door on the left and once your performance is complete, you have crossed everything over the center line and the T&P Judge has called time...The individuals responsible for the large props will EXIT through the double doorway on the right. Everyone else will exit the performance area as noted in the next picture.

The image above shows the doors the performers, equipment, floor and small props will exit from after their performance is done. These doors are also part of the normal flow for the color guard units. The blue arrow above notes the doors you will exit from.

This is the outside of the normal flow exit. This is opposite the blue arrow from the image above.
